

# 1000H: 3 in 1 Farm Analyser

## CropScan 1000H: 3 in 1 Farm Analyser

1. **Portable NIT Analyser:** for use in the ute or on the bench provides rapid protein, oil and moisture analysis on farm.
2. **On Combine Analyser:** for use in a harvester to provide continuous measurements of protein, oil and moisture and to generate Real-time Paddock Maps.
3. **On Silo Analyser:** for use on an auger to provide continuous protein, oil and moisture analysis for blending and loading trucks.

### CropScan 1000G Upgrade Path:

Your CropScan 1000G can now be upgraded to a CropScan 1000H Farm Analyser. A Remote Sampling Head, Fiber Optic Cable and a Touch Screen PC can be retrofitted to a CropScan 1000G On Farm Analyser to make it the same as the CropScan 1000H: 3 in 1 Farm Analyser.
